March 7, 2020

Headmaster Rogers
The Gow School
2491 Emery Road
South Wales, NY 14139

Dear Headmaster Rogers:

This letter is to inform you that as of March 7, 2020, the attached list of chaperones and students have reached the completion of their 14-day monitoring period following a potential travel-related exposure to COVID-19 infection, caused by the 2019 novel Coronavirus.

The Erie County Department of Health has determined that they are no longer at significant risk of developing COVID-19. Because the monitoring period has ended, they will no longer be asked to check your temperature twice a day and they will not be required to maintain contact with the Erie County Department of Health.

They are under no travel restrictions and can engage in the normal activities. They may share this letter with their employer/academic institution as confirmation that you are no longer considered at risk for COVID-19.

The Erie County Department of Health staff would like to thank you for your cooperation and efforts to protect the health of your community. If you or someone else has a question, do not hesitate to contact the Erie County Department of Health, Office of Epidemiology at (716) 858-7697.

Sincerely,

Gale R. Burstein, MD, MPH, FAAP
Commissioner of Health
Erie County Department of Health
