Dear Gow Families,

The health office is in full swing as our summer program is underway. I would like to introduce myself, Kathy Faltyń, RN, Director of Health Services and my colleague, Halila Reisdorf, RN. We are the full-time nurses that will be tending to your child’s care.

Due to New York State health regulations each year, your child must have a Complete Physical Exam before coming to campus for the start of the year. The forms are also available electronically on the website at www.gow.org.

All insurance claims that do not fall under the policy guideline of your plan will be billed directly to your home address by the healthcare provider. International Students that have coverage with American Insurance Company are not affected by this change.

At certain times during the year, we are required to perform diagnostic tests for diagnosis and treatment of illnesses and adherence to the policies of The Gow School. The fee for drug testing is $25.00 USD.

Under New York State Law, any prescribed or over the counter medicine that your child is taking must be given to the health office upon your arrival. This includes vitamins, Motrin, Tylenol and antacids. The goal of the school nurses is to keep our students safe and healthy, please help us meet this goal by turning in all medications to the health office.

The Health Office is an open, compassionate, fair, and friendly place. We are here to provide confidential, caring treatment. Please contact us anytime during the school year with your concerns. We are available from 7:00a.m. - 9:30p.m. on Monday-Friday, 7:00a.m. - 5:30p.m. on Saturday and 9:00a.m. - 8:30p.m. on Sunday. You can contact us at 716.687.2084, e-mail tokfaltyń@gow.org or fax us at 716.687.2083. We will work with you to achieve the best healthcare for your child. We look forward to your arrival and meeting you.

Sincerely,

Kathy Faltyń, RN
Director of Health Services

Halila Reisdorf, RN
School Nurse

Authorization for Treatment and Ongoing Health Care

I hereby request and authorize The Gow School to administer to the above - named participant under the supervision of a legally qualified nurse, medications which have been prescribed by a physician.

This health history is correct so far as I know, and the person listed above has permissions to engage in all prescribed activities except as noted. I hereby give The Gow School permissions:

1. To provide ongoing health care
2. To select medical personnel and to order X-rays, routine tests, treatment, to release any record necessary for insurance purposes.

Emergency authorization for treatment:

In the event I cannot be reached in an emergency, I hereby give permission to the medical personnel selected by The Gow School to hospitalize, secure proper treatment for, and to order injection and/or anesthesia and/or surgery for the person named above. This form may be photocopied for use outside of campus.

This authorization is effective from June 1, 2020 to August 15, 2021. I understand that I may terminate this authorization at any time by notifying The Gow School in writing (return receipt requested)

Check one box and sign below.

☐ My child has had the meningococcal conjugate vaccine (MCV4), for example Menactra or Menveo.

Date received: ____________________________

[Note: The Centers for Disease Control and Prevention recommend two doses of MCV4 for all adolescents 11 through 18 years of age: the first dose at 11 or 12 years of age, with a booster dose at age 16. Adolescents in this age group with HIV infection should get three doses: 2 doses 2 months apart at 11 or 12 years, plus a booster at age 16.

If the first dose (or series) is given between 13 and 15 years of age, the booster should be given between 16 and 18. If the first dose (or series) is given after the 16th birthday, a booster is not needed.]

☐ I have read, or have had explained to me, the information regarding meningococcal meningitis disease. I understand the risks of not receiving the vaccine. I have decided that my child will not obtain immunization against meningococcal meningitis disease.

Medication Delivery Information for Parents

July 2020

Dear Parent or Guardian,

It is required that both the health care provider and parent signature is needed before any prescription or over the counter (OTC) medications are administered. Although this may cause some inconvenience, we feel that this policy is best for the continued protection of your child and must be followed. If we do not have your written permission and the written permission of your physician, the medication will not be given.

- Parents/guardians are responsible for having medications delivered directly to the school in a properly labeled original container by an adult, unless student has a health care provider attestation to carry and use their medication independently.

- Please bring all medication directly to the School Health Office.

- If your child has any allergy that requires an epi-pen, please have your doctor fill out the allergy action plan.

- If your child has seizures, please have your doctor fill out the seizure action plan.

- If your child's health care provider decides your child can carry and use their diabetes, asthma or epinephrine auto-injector medication independently and you wish them to do so, they must put in writing (attest) that your child can do so safely. We have a form they can use to provide this information if they wish.

Medication forms are available on our website or may be obtained from the School Health Office.

If you need to make special arrangements to drop off medication, please call to make these arrangements.

Thank you in advance for your cooperation.

Kathy Faltyn, RN
Director of Health Services
kfaltyn@gow.org

The Gow School
Over The Counter Medication Consent Form

To request that The Gow School administer any over-the-counter (OTC) medication to your child, the following is required:

- The physicians signed and dated authorization for selected medication at school.
- Parents signed and dated authorization to administer selected medication at school.
- Physician’s directions, if differing from manufacturer’s instructions.
- Annual renewal of authorization and immediate notification, in writing, of changes.

Students Name ___________________________  DOB ____/____/____

Topical

- Triple Antibiotic Ointment
- Hydrocortisone Cream 1% for itching
- Burn Gel for minor burns

REQUIRED FOR INDEPENDENT MEDICATION CARRY AND USE

Directions for the Health Care Provider: This form may be used as an addendum to a medication order which does not contain the required diagnosis and attestation for a student to independently carry and use their medication as required by NYS law. A provider order and parent/guardian permission are needed in order for a student to carry and use medications that require rapid administration to prevent negative health outcomes. These medications should be identified by checking the appropriate boxes below.

Student Name: ___________________________ DOB: ______________

Health Care Provider Permission for Independent Use and Carry
I attest that this student has demonstrated to me that he or she can self-administer the medication(s) listed below safely and effectively, and may carry and use this medication (with a delivery device if needed) independently at any school/school sponsored activity. Staff intervention and support is needed only during an emergency. This order applies to the medications checked below:

This student is diagnosed with:

☐ Allergy and requires Epinephrine Auto-injector
☐ Asthma or respiratory condition and requires Inhaled Respiratory Rescue Medication
☐ Diabetes and requires Insulin/Glucagon/Diabetes Supplies
☐ ______________________which requires rapid administration of ______________________
(State Diagnosis) (Medication Name)

Signature: ___________________________ Date: ______________

Parent/Guardian Permission for Independent Use and Carry
I agree that my child can use their medication effectively and may carry and use this medication independently at any school/school sponsored activity. Staff intervention and support is needed only during an emergency.

If YES, describe process for returning student to classroom:

Emergency Response

A "seizure emergency" for this student is defined as:

Seizure Emergency Protocol
(Check all that apply and clarify below)

☐ Contact school nurse at _______________________
☐ Call 911 for transport to _______________________
☐ Notify parent or emergency contact
☐ Administer emergency medications as indicated below
☐ Notify doctor
☐ Other _______________________

Basic Seizure First Aid

• Stay calm & track time
• Keep child safe
• Do not restrain
• Do not put anything in mouth
• Stay with child until fully conscious
• Record seizure in log

For tonic-clonic seizure:
• Protect head
• Keep airway open/watch breathing
• Turn child on side

A seizure is generally considered an emergency when:

• Convulsive (tonic-clonic) seizure lasts longer than 5 minutes
• Student has repeated seizures without regaining consciousness
• Student is injured or has diabetes
• Student has a first-time seizure
• Student has breathing difficulties
• Student has a seizure in water
